OUR SERVICES “

- Civil Works & Construction
- Equipment-Machinery & Devices Rental
- Mechanical-Welding & Fabrications
- Electrical & Instrumentation
- Solar Solutions
- Engineering
- Transport & Lifting Services
- Warehouses & Laydown Yards Services
- Catering, Accommodation & Camp Services
- Procurement & Supply
- Electrical Power Supply
- Manpower Supply
- HDPE liner services
- Security and HSE services.
- Slickline & pumping unit services.
- Internal and external customs clearance.
- Drilling and preparation of rig sites services.
- General oil and gas field services

About us

Aloss group provides technical, engineering, civil & construction services, and procurement on a global basis for large-scale projects in the sectors of oil & gas, infrastructure, and civil works.

Backed by 20 years' experience, our company employs professionals worldwide who are committed to developing timely and competitive solutions for complex projects, in compliance with the highest technical safety and quality standards, while protecting the environment and promoting local community development.

Mission

Our mission is to provide our clients with value through the provisioning of civil works, construction, engineering, technical, oil & gas field services, Procurement and transportation services. We consider the empowerment of our human resources to be fundamental in building a permanent Knowledge base. We are committed to our employees' safety and the development of the areas we work in, seeking the well-being of communities and caring for the environment.

Vision

To be recognized as a leading engineering, construction, and oil & gas company for its work method, technology and human Resource competencies.

Values

1. Commitment to the safety of people, environmental care and community development.
2. Human resources development and knowledge building.
3. Management transparency and professionalism.
4. Emphasis on processes and predictability.

Civil Works & Constructions

Aloss Group has an excellent record in providing professional civil and construction services under the supervision of experienced and qualified site supervisors. Our experience is supported by expert engineers (civil engineers, mechanical engineers, electrical engineers), sited foremen, and equipment operators. Aloss is equipped with the light and heavy equipment needed for the civil and construction works. We are adapted at mobilizing resources quickly in order to meet tight schedules and have earned a reputation of producing quality works within stringent time and budget constraints.

Aloss group has strong commitment to health and safety procedures in all work stages. Our company has the capability and experience and executes professional jobs including the following civil and construction works.

1. preparation of rig locations and oil well sites.
2. site levelling. watering and compaction.
3. construction of cellar required for drilling rig along with HDPE liner sheeting.
 - heavy foundations.
 - pits, shoring.
 - slab on grade.
 - elevated slab concrete elevated piers, platforms & docks.
 - concrete cutting
 - structural form work.
 - miscellaneous civil works
 - construction work -steel fabrication and erection.
 - repairing road bitumen pavement.
 - underground sewerage pipe networks.
 - repairing building (using epdxy grout/ sealant or special materials).
 - HDPE liner - high density polyethylene fabrication.
 - road contractors' activities.

■ Including:

- laboratory for concrete testing.
- concrete design.
- surveys services.

Metal Building & Steel structures

Aloss has very longer experience for more than 15 years in design/ erection steel.

Structures and repairing /pre-fabricated metal buildings services.

Under our scop meatal construction

1. Design, fabrication & repairing metal buildings, steel homes, storage buildings, modular offices.

2. Practical garage for vehicle / small equipment mechanic maintenance & erecting.

3. Oil sites accommodation caravans.

4. Aloss has very longer experience for more than 15 years in design/ erection steel.

5. Removing roof & hangar doors: bl-fold doors, hydraulic doors, stack doors.

6. Fireproofing plaster. Made of polystyrene-leavened gypsum or cement fibers, vermiculite or calcium silicate mineral boards as per costumer request (hazard zone).

Panting System

We use our company sand blasting and painting machines and surface preparation and climatic condition test device.

Fence & Security System

We specialize in: chain link fencing:

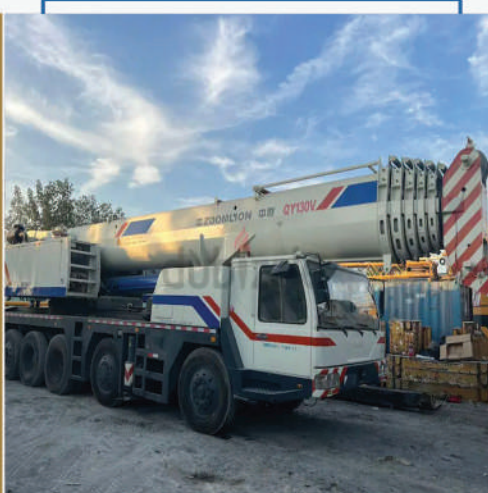

1. High and maximum security fencing.
2. Perimeter fencing.
3. Temporary fencing.
4. Gate access and control. systems heights range from 900mm to 3600mm wire diameter 2.00mm to 5.00mm depending on security needs galvanized or PVC coated pedestrian and vehicle gates available in numerous sizes in ground and bolt down systems available.

Equipment, Machinery & Devices

Civil engineering, construction and lifting equipment for on use and rental throughou1 our branches in Yemen, UAE and KSA. Our fleet includes the following types of equipment with certified equipment drivers & operators.

- Ambulance Fully Equipped
- Car Wash Machine
- Diesel Pump
- Excavator (Various Sizes)
- Tractor Prime Mover
- Pick Up Truck - 3 Ton
- Power Generator (Various Sizes)
- Staff Bus (Various Sizes)
- Central Concrete Batch Plant
- Concrete Mixer
- Dozers
- Diesel Refueling
- High Bed Trailer
- Dump Trucks
- Painting Equipment
- Trailers (Various Sizes)
- Tire Machine
- Tower Light (Various Voltage Sizes)
- Transit Mixer
- Tanker Truck (Various Sizes)
- Compactors
- Water Tank Trucks
- Man/Fork Lift
- Bob Cat
- Grader
- Cranes
- Wheel Loader (Various Sizes)
- Wheel Dozer
- Vacuum Truck (Various Sizes)
- Vibrator Machine Concrete.
- Water Pump (Various Sizes)
- Bull Air Compressor
- High-Up Sand Blasting
- Bar Bending Machine
- Bar Cutting Machine
- Booster Charger
- Welding Machines
- Electrical Test Devices
- Land Cruisers
- Hiab Cranes (From 3 To 30 Tons)
- Pick Up 4x4

Mechanical, welding & fabrication

We offer different mechanical-welding, and fabrication works. Some of our services are highlighted below:

1. Mechanical maintenance of crude oil pump.
2. Supplying & erecting deep well submersible, convertible, dewatering, diaphragm, pumps.
3. Fixing generator engines or any diesel engine.
4. Maintenance & repairing of mechanical shaft system.
5. Maintenance & repairing of pneumatic & hydraulic system.
6. Pipeline/ piping fabrication (spools)
7. Tanks fabrication - repair and erection
8. Crude oil vessels repair.
9. Installation of piping systems
10. Welding of various types of steel and alloy
11. Stress relieving and non-destructive testing
12. Structural fabrication and erection - towers
13. Structural fabrication and erection: mezzanines. Stairs. Catwalks. Handrails. Supports. Skids
14. Fabrication performed in carbon, stainless, aluminium, and special alloys.
15. Bolt services.
16. Sand blasting & painting
17. Custom fabrication of skid-mounted process machinery, process/motor control centres, and operator enclosures.

Expertise

1. Gtaw & smaw.
2. Steel grades
3. Stainless steel (30 4, 316 & 321)
4. Carbon steel.

Testing

1. Non destructive examination (nde)
2. Visual inspection.
3. Dye-penetrant.
4. Hydrostatic testing.

Electrical & instrumentation

Aloss provides a wide-ranging portfolio of electrical and instrumentation services, including maintenance, design, assembly and commissioning of industrial plants, to various sectors including oil & gas, petrochemical, power, water, industrial, and major infrastructure.

Electrical & instrument services provided:

1. Cable installation
2. Power distribution and protection.
3. Cable tray & cable erection
4. Plc (just brand schneider), telecommunication, pa and cctv systems installation .
5. Continuity checks and test.
6. Pre-commissioning activities.
7. Commissioning activities.
8. Operation and maintenance.
9. Relay logic panel.
10. Master control panel.
11. Low voltage controls and distribution.
12. Lighting system.
13. Generator controls.
14. Dcs and hmi systems.
15. Standby power and ups systems.
16. Flow meter proving.
17. Temperature/pressure/levelling measuring equipment.

■ Solar solution

The solar panels are made up of photovoltaic (PV) cells, which convert sunlight into direct current (DC) electricity throughout the day and inverter converts the dc electricity generated by the solar panels into the alternating current (ac) electricity. Solar systems can be categorized into; off-grid and on-grid systems. Off-grid system is a stand-alone system that generated power during the day is stored in a battery bank. On-grid system is tied to grid that generated power can be used within the building and surplus pushed into the utility grid network.

We comply with local government solar system regulations and has successful track record of completed solar PV energy projects in ccc region and in Yemen. We are proud to have partners of the pioneers in the solar PV industry who offers their products and technical expertise that allows us to execute any project.

■ Our system is with the solution

- Well-engineered PV systems confirming to highest local and international standards
- Complete PV systems with integrated components
- Long life reliable system components and honored warranty
- Cost effective and low maintenance systems
- Innovative solutions and wide range of applications
- Electrical panels with smart relay and smart meter as per Dewa regulation.

■ Technical Data

- Mono and poly-crystalline pv modules string and central inverters
- Charge controllers
- Monitoring and web integrated systems batteries and battery banks
- Mounting systems

■ Applications

- Rooftop
- Ground mounting street lighting solar carports
- Building integrated solar PV (BIPV)

■ Engineering

As professional and competitive engineering service providers, we render the opportunity to furnish solutions that meet our client's requirements, achieved within their budget and on time. Our solutions exceed expectations on every level. In addition to new designs and builds, Aloss can overcome and resolve any engineering problems within our remit utilizing a qualified, systematic, progressive, safe and diligent approach.

■ Engineering services

Design with calculation, and drawing of cable installation, power distribution and protection, plc (just brand schneider), CCTV system, electrical distribution & control panel, lighting earthing system, standby power and ups systems, lv diesel station plant, loading/ un-loading fuel station, fire protection & fire fighting system , steel fabrication and erection, civil works and concrete design under laboratory supervision.

- Drawing: pipping isometrics P&IN drawing.
- For crude oil facility, we use specialized companies design of oil activities and communicate with them when there is need to modify the design.

Warehouses & Laydown Yards Services

Fully equipped warehouses and lay down yards at different places in Yemen.

Aloss group provides warehouses and yards services to various sectors including oil & gas, petrochemical, power, water, industrial, food & beverage and major infrastructure. All our storages and yards are at key locations and are supplied with electricity, water and fuel supplies and are fully equipped with lifting equipment (both cranes and forklifts) and have total perimeter security fencing with guard patrols totally ensuring the safe keeping of our client's materials and equipment.

■ Transportation & lifting equipment

Aloss owns and operates a large fleet of heavy-duty trucks and trailers designed for overland, desert and rough terrain transportation. Aloss specializes in rig moves, crude oil, gas and other oil & gas equipment and materials transport services with more than 580 big moves successfully completed for calvalley petroleum, OMV YEMEN, Snopec, Joeco, Petrochem performance chemicals and halliburtonon.

- Local transport from all YEMEN seaports to various oilfield locations
- Transportation from one block to another in Yemen
- International transportation from UAE, Saudi Arabia. Oman, to any location in Yemen.
- Crude oil transport.
- Container loading and unloading.
- Water transport for oil rigs.
- Rig movement services.
- LTL (less than truckload) and TL (truckload).
- Small package shipments (e.g., UPS, FEDEX).
- UAE (Dubai/ Abu Dhabi), Saudi Arabia. Yemen, and Oman.

■ Customs clearance & freight forwarding services on global network with offices in Lifting services:

Aloss group offers expertise with long period of combined experience delivering oil drilling rig transportation, crane and other lifting services for oil, gas, power. Construction & infrastructure projects. Our expert professionals with years of experience are dedicated to providing the safest and most cost-effective way to lift and place the most delicate piece you build or manufacture.

Aloss group crane and other lifting equipment operators are certified and will give you safe and reliable service each and every time they are on your site.

■ Our lifting services include:

- Crane services for drilling, production and completion.
- Oil drilling rig construction and movement
- Transportation and relocation of heavy and light oil, gas & power equipment and
- Materials, and construction & civil works lifting services.

Equipment

- Mobile cranes.
- Hydraulic cranes.
- Forklifts (various sizes).
- Manlifts (various sizes).
- Hiab cranes (from 3 to 30 tons).

Catering, accommodation & camp services

Since the inception Aloss Group dedicated its efforts & resources to develop corporate & industrial of catering & Accommodation services to various oil field sectors and a wide range of INGO's in various cities, rural areas, remote areas, deserts, industrial plants and other critical sites.

Aloss Group offers a variety of high quality catering& Accommodation services.

Mission: To provide reliable long-term service in catering & accommodation services and improve the quality of life of all our customers.

We pride ourselves on building strong relationships with our corporate clients and having partners who have extended their contracts with Aloss Group for more than 18 years.

Vision: Aloss Group catering & Accommodation to be the long term strategic partner to all our clients and provide solutions that are tailor made to satisfy our clients' needs and requirements.

Our Promise: We use only the freshest and finest ingredients to provide our clients with a five-star dining & provides portable and normal accommodation units prepared with global building standards and supplied with the most recent furniture and all needed utilities.

Our experienced staff not only caters, but creates a world class dining & accommodation experience for our clients. Our catering & Accommodation services extend into: Camp Catering & Accommodation

- Oil & Gas Field
- Airline Catering
- Hospital Catering
- Special Events
- Social Events
- Corporate Events

Procurement & Supply

Aloss provides professional supply services from the local market as well as outside the country as we have constant and strong business relations with large number of suppliers and manufacturers in the Arabian Gulf (Saudi Arabia. UAE, Oman .. Etc.). Europe. UAE and far east.

The procurement function is driven by the objective of procuring materials and equipment in time from the best possible sources according to the specification and requirements. We strive to buy cost-effectively and ensure deliveries to meet project schedule without compromising on quality.

We are able to supply pipes and tubular\$ to all international standards such as ASTM. ASME, API. En and din. Below is an overview of materials that can be supplied in ASTM grades (for reference only). Equivalent din and other international grades can also be supplied.

We supply all types and sizes of valves and flanges and other oil and gas heavy equipment such as separators, heat exchanger. Boilers, pig launcher. Cooling towers of various sizes. Fire fighting systems. Columns. Fitters, condensers. Plug header. Cover plate header. Pipe header. Wilded bonnet etc.

SEAMLESS

LINE PIPES (API SL) HIGHYIELD LINE PIPES FOR SOUR/NON-SOUR APPLICATION. CARBON STEELS/CARBON-MANGANESE (ASTM A206)
LOW TEMPERATURE CARBON STEELS (ASTM A333) ALLOY STEELS (ASTM A335) STAINLESS STEEL (ASTM A312)

WELDED (ERW, HFI, EFW, DSAW)

CARBON STEELS/CARBON-MANGANESE (ASTM A672) LOW TEMPERATURE
CARBON STEELS (ASTM A671) ALLOY STEELS (ASTM A691)

STAINLESS STEEL (ASTM A213/A358)

BUTT-WELD ELBOWS. TEES. REDUCERS. CAPS TO ASME B16.9 AND 16, 2B FORGE
FITTINGS TO ASME B16.11

WELD NECK. LONG WELD NECK. SOCKET WELD, BLIND, SLIP ON, ORIFICE
FLANGES IN ALL

PRESSURE RATING WITH RAISED FACE, FLAT FACE OR RING TYPE JOINT
REQUIRED TO ASME B16.5 AND 16.47

Valves

Gate Valves

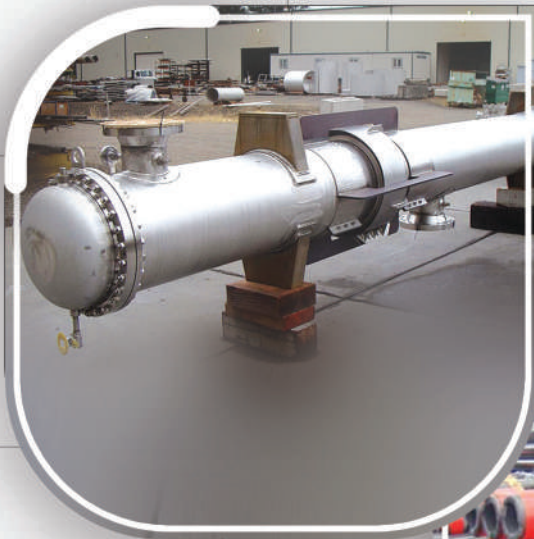

Ball Valves

Check Valves

Butterfly Valves

Electrical Power Supply

SELL ELECTRIC POWER ACROSS TRADING DIESEL GENERATORS WITH OPERATION/ MAINTENANCE TEAMS

MIN GENERATOR CAPACITY 45 KW MAX. 500 KW

Manpower Supply

We Offer:

- Electrical/instrument/mechanical/civil engineers or technicians.
- QA/QC engineers.
- Operation technicians
- Equipment operators, laborers, surveyor.,Or any specialized work team requirement

Aloss Power

Aloss Power LLC, the leading Electrical Panel Manufacturing Company in UAE, started its operations in 2019 and is proud to be considered one of the leading Low Voltage Panel Builders based in Dubai, UAE.

For the past 4 years, we have been in the business and have contributed to the nation's growth through various prestigious projects.

We believe in sustained after-sales support and maintaining a long-term relationship with our clients.

Our workforce consists of highly skilled and professionally qualified personnel; this has enabled us to expand our business worldwide within a brief period.

Our scope of work includes a wide range of projects from Commercial, Oil & Gas, Industrial, marine, and Defense that span over the GCC countries, particularly in the UAE.

AlosWe are specialized in Oil & Gas Industry, Military, Defense, Airport, Aviation, infrastructure: Roadways, Highways, Landscape, Irrigation Control, Sewage treatment Plant, manufacturing Process industry, Water and Electricity company, HVAC, MEP Contractors, Marine, UAE Armed Forces (CMW, PGC, CICPA), RTA, and ADNOC Group of companies.

Our activities at a glance:

1. LV Panels up to 6300A, Main Distribution Boards, Sub Main Distribution Boards, Final Distribution Boards
2. Motor Control Center, ATS Panels/AMF Panels, Feeder Panels, Pump Control Panels
3. Soft-starter Panels, Variable Speed Drives, HVAC Control Panels
4. PLC Control Panels, Street Lighting Control Panels, Metering Cabinets
5. Synchronization for Generator Controls (4000A), Power Management System
6. Industrial UPS, Static Transfer Switch, Frequency Converter
7. Site Commissioning, Site Modification Work, Bus bar Modification Work
8. Maintenance of all types of LV Panels, Control Panels, Motor Control Centers, VFD Panels

Strength:

1. Online & offline-Design, Engineering Support & solution.
2. High Standard Manufacturing, FAT, SAT.
3. Site Survey, Testing and Commissioning.
4. AMC/Facility Management.
5. Standard supplier warranty.

Our Project

Basrah Gas Company, BW Energy, ExxonMobil, Shell, Seplat Petroleum, Marin Asset, Schlumberger, UAE Armed Forces (CMW, PGC, CICPA), RTA, and ADNOC Group of companies.

ALOSS Security — Copmany

*A company that you **can**
trust*

Introduction

Aloss Security Company is considered the best Security specialist in providing comprehensive range of Security services in Yemen according to international standards and we offer experienced professional armed and unarmed security guards, VIP services, access control system, radio network , operators, security training and consultants .

Also we hire and supplying armoured vehicles with supplying and providing the latest tracking and monitoring technologies for vehicles in GPS system.

Aloss Security Company is licensed as a private security company by min MOI in Yemen and our headquarter in Ataq, Shabwah ,Republic of Yemen since 2010 Year .
